

Configuring Zee S2 WiFi

Configuring the Wi-Fi Adapter

The Zee S2 comes with built-in Wi-Fi. If you wish to connect your HomeTroller to your home network using Wi-Fi, follow these instructions:

1. Go to the **TOOLS** drop menu and click **Setup**.
2. Click the **Network** tab.
3. In the Wi-Fi settings section, enter the SSID (Wi-Fi network name) of your Wi-Fi. *This is case sensitive.*
4. Choose your encryption type and enter your Wi-Fi password. Keep **Enable DHCP** checked.
5. Go to **TOOLS > System > Shutdown System** and shut the system down.
6. Unplug the power and Ethernet cables. Now reconnect the power and let the system boot.
7. Using any browser-enabled device, access find.homeseeer.com. Your Wi-Fi connected HomeTroller Zee S2 should now be accessible!
