

Registering Zee S2

Registering your HomeTroller Zee S2 or SEL

You must register the HS3 software running on your unit to allow it to run. Your license ID and password are located on the bottom of the controller. You will see a prompt to register the software online when you first connect.

1. Click the "Click here for instant online registration" button.
2. Enter your license ID and password located on the bottom of the unit.
3. Once your license is entered and recognized, make sure to enter your information on the next page. This allows us to verify the owner of the license and provide technical support.
